## FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements other than statements of present and historical facts contained in this Quarterly Report on Form 10-Q, including without limitation, statements regarding our future results of operations and financial position, business strategy and approach may be forward-looking. You can generally identify forward-looking statements by our use of forward-looking terminology such as "anticipate," "believe," "continue," "could," "estimate," "expect," "intend," "may," "might," "plan," "potential," "predict," "seek," "vision," or "should," or the negative thereof or other variations thereon or comparable terminology.

Forward-looking statements are based on our management's beliefs and assumptions and on information currently available to us. Such beliefs and assumptions may or may not prove to be correct. Additionally, such forward-looking statements are subject to a number of known and unknown risks, uncertainties and assumptions, and actual results may differ materially from those expressed or implied in the forward-looking statements due to various factors, including, but not limited to, those identified in Part I, Item 1A, "Risk Factors" and in Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" of our Annual Report on Form 10-K for the fiscal year ended December 31, 2021 (the "2021 10-K") and in Part I, Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations" of this Quarterly Report on Form 10-Q. These risks and uncertainties include, but are not limited to:

- We may be unable to attract new customers, retain existing customers and maintain or grow the number of Unlimited Wash Club ("UWC") Members, which could adversely affect our business, financial condition and results of operations and rate of growth.
- If we fail to acquire or operate new locations in a timely and cost-effective manner, enter into new markets or leverage new technologies, our competitive advantage or financial performance could be materially and adversely affected.
- We may not be able to successfully implement our growth strategies on a timely basis or at all.
- We are subject to a number of risks and regulations related to credit card and debit card payments we accept.
- An overall decline in the health of the economy and other factors impacting consumer spending, such as natural disasters and fluctuations in inflation, may affect consumer purchases, reduce demand for our services and materially and adversely affect our business, results of operations and financial condition.
- Growing inflation, supply chain disruption and other increased operating costs could materially and adversely affect our results of operations.
- Our locations may experience difficulty hiring and retaining qualified personnel, resulting in higher labor costs.
- We lease or sublease the land and buildings where a number of our locations are situated, which could expose us to possible liabilities and losses.
- Our indebtedness could adversely affect our financial health and competitive position.
- Our business is subject to various laws and regulations and changes in such laws and regulations, or failure to comply with existing or future laws and regulations, may result in litigation, investigation or claims by third parties or employees that could adversely affect our business.
- Our locations are subject to certain environmental laws and regulations.
- We are subject to data security and privacy risks that could negatively impact our results of operations or reputation.
- We may be unable to adequately protect, and we may incur significant costs in enforcing or defending, our intellectual property and other proprietary rights.
- Stockholders' ability to influence corporate matters may be limited because a small number of stockholders beneficially own a substantial amount of our common stock and continue to have substantial control over us.
- Our stock price may be volatile or may decline regardless of our operating performance, resulting in substantial losses for investors purchasing shares of our common stock.

Given these and other risks and uncertainties applicable to us, you are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements included elsewhere in this Quarterly Report on Form 10-Q are not guarantees of future performance and our actual results of operations, financial condition and liquidity, and the development of the industry in which we operate, may differ materially from the forward-looking statements included elsewhere in this Quarterly Report on Form 10-Q. In addition, even if our results of operations, financial condition and liquidity, and events in the industry in which we operate, are consistent with the forward-looking statements included elsewhere in this Quarterly Report on Form 10-Q, they may not be predictive of results or developments in future periods.

Any forward-looking statement that we make in this Quarterly Report on Form 10-Q speaks only as of the date of such statement. Except as required by law, we do not undertake any obligation to update or revise, or to publicly announce any update or revision to, any of the forward-looking statements, whether as a result of new information, future events or otherwise, after the date of this Quarterly Report on Form 10-Q.

As used in this Quarterly Report on Form 10-Q, unless otherwise stated or the context requires otherwise, references to "Mister Car Wash," "Mister," the "Company," "we," "us," and "our," refer to Mister Car Wash, Inc. and its subsidiaries on a consolidated basis.

Certain information and note disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to such rules and regulations. The accompanying unaudited condensed consolidated financial statements include the accounts of the Company. All material intercompany balances and transactions have been eliminated in consolidation.

## Use of Estimates

The preparation of the unaudited condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenue and expenses during the periods reported. Some of the significant estimates that the Company has made pertain to the determination of deferred tax assets and liabilities; estimates utilized to determine the fair value of assets acquired and liabilities assumed in business combinations and the related goodwill and intangibles; and certain assumptions used related to the evaluation of goodwill, intangibles, and property and equipment asset impairment. Actual results could differ from those estimates.

## Net Income (loss) Per Share

Basic net income (loss) per share is computed by dividing net income by the weighted-average number of common shares outstanding for the period. Diluted net income (loss) per share is computed by dividing net income by the weighted-average shares outstanding for the period and includes the dilutive impact of potential new shares issuable upon vesting and exercise of stock options, vesting of restricted stock units, and stock purchase rights granted under an employee stock purchase plan. Potentially dilutive securities are excluded from the computation of diluted net income per share if their effect is antidilutive. Reconciliations of the numerators and denominators of the basic and diluted net income per share calculations for the periods presented are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2022	2021	2022	2021
<b>Numerator:</b>				
Net income (loss)	\$ 35,659	\$ (110,300)	\$ 71,147	\$ (85,716)

## Deferred Offering Costs

The Company capitalizes certain legal, accounting, and other third-party fees that are directly related to the Company's equity financings, including the IPO, until such financings are consummated. After consummation of an equity financing, these costs are then recorded as a reduction of the proceeds received as a result of the financing. Should a planned equity financing be abandoned, terminated, or significantly delayed, the deferred offering costs would be immediately written off to operating expenses. Upon the closing of the IPO in June 2021, all deferred offering costs in the accompanying unaudited condensed consolidated balance sheets were reclassified from prepaid expenses and other current assets and recorded against the IPO proceeds as a reduction to additional paid-in capital. As of June 30, 2022 and December 31, 2021, there were no deferred offering costs capitalized.

## Prior Period Reclassification

Certain prior period amounts related to other receivables within accounts receivable, net and prepaid expenses and other current assets in the accompanying unaudited condensed consolidated financial statements have been reclassified to conform to the current period presentation. There was no change to prior period current or total assets.

## Recently Issued Accounting Pronouncements Not Yet Adopted

In June 2016, the FASB issued ASU No. 2016-13, *Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments* ("ASU No. 2016-13"), which replaces the existing incurred loss impairment model with an expected credit loss model and requires a financial asset measured at amortized cost to be presented at the net amount expected to be collected. The guidance will be effective for the Company beginning January 1, 2023, and interim periods therein. Early adoption is permitted. The Company is currently evaluating the effect that ASU No. 2016-13 will have on its consolidated financial statements and related disclosures.

In October 2021, the FASB issued ASU No. 2021-08, *Business Combinations (Topic 805) – Accounting for Contract Assets and Contract Liabilities from Contracts with Customers* (“ASU No. 2021-08”). The guidance improves the accounting for acquired revenue contracts with customers in a business combination by addressing diversity in practice and certain inconsistencies in application. Under current U.S. GAAP, an acquirer generally recognizes contract assets acquired and liabilities assumed in a business combination at fair value on the acquisition date. The amendments in this update require that an acquirer recognize and measure contract assets and contract liabilities acquired in a business combination in accordance with ASC Topic 606 as if it had originated the contracts. The amendments in this update will be effective for the Company beginning January 1, 2023, and interim periods thereafter. Early adoption is permitted, including adoption in an interim period. The Company is currently evaluating the effect that ASU No. 2021-08 will have on its consolidated financial statements and related disclosures.

#### **Credit Agreement**

On August 21, 2014, the Company entered into a Credit Agreement ("Credit Agreement") which was originally comprised of a term loan ("First Lien Term Loan") and a revolving commitment ("Revolving Commitment"). The Credit Agreement was collateralized by substantially all personal property (including cash, inventory, property and equipment, and intangible assets), real property, and equity interests owned by the Company.

Under the Credit Agreement and with respect to the First Lien Term Loan, the Company had the option of selecting either (i) a Base Rate interest rate plus fixed margin of 2.25% or (ii) a Eurodollar (LIBOR) interest rate for one, two, three or six months plus a fixed margin of 3.25%.

Under the Credit Agreement and with respect to the Revolving Commitment, the Company had the option of selecting either (i) a Base Rate interest rate plus a variable margin of 2.50% to 3.00%, based on the Company's First Lien Net Debt Leverage Ratio, or (ii) a Eurodollar (LIBOR) interest rate for one, two, three or six months plus a variable margin of 3.50% to 4.00%, based on the Company's First Lien Net Leverage Ratio.

#### **First Lien Term Loan**

In February 2020, the Company entered into Amendment No. 1 to Amended and Restated First Lien Credit Agreement ("Amendment No. 1") which amended the Amended and Restated First Lien Credit Agreement entered into in May 2019 (the "A&R First Lien Credit Agreement"). Amendment No. 1 changed the interest rate spreads associated with the A&R First Lien Credit Agreement where (i) the variable margin associated with the Base Rate interest rate plus a variable margin based on the Company's First Lien Net Leverage Ratio changed from 2.25% to 2.50% to 2.00% to 2.25% and (ii) the variable margin associated with the Eurodollar Rate interest rate for one, two, three or six months plus a variable margin based on the Company's First Lien Net Leverage Ratio changed from 3.25% to 3.50% to 3.00% to 3.25%.

In June 2021, the Company made a voluntary prepayment of \$190,400 of outstanding principal under the First Lien Term Loan funded by the net proceeds from the IPO. In connection with the voluntary prepayment, the Company expensed \$1,037 of previously unamortized debt issuance costs as a loss on extinguishment of debt in the unaudited condensed consolidated statements of operations and comprehensive income. The early prepayment resulted in the elimination of required quarterly amortization principal payments through 2026.

In December 2021, in connection with the Clean Streak Ventures acquisition, the Company entered into Amendment No. 3 to Amended and Restated First Lien Credit Agreement ("Amendment No. 3") which amended and restated the A&R First Lien Credit Agreement, as previously amended. Under the terms of Amendment No. 3, the previous First Lien Term Loan was increased by \$290,000 to \$903,301 with the balance due on May 14, 2026. The incremental increase in aggregate principal of \$290,000 resulted in \$285,962 of proceeds net of discount and deferred debt issuance costs.

As of June 30, 2022 and December 31, 2021, the amount outstanding under the First Lien Term Loan was \$901,201 and \$903,301, respectively. As of June 30, 2022 and December 31, 2021, the interest rate on the First Lien Term Loan was 4.67% and 3.10%, respectively.

The A&R First Lien Credit Agreement, as amended (the “Amended A&R First Lien Credit Agreement”), requires the Company to maintain compliance with a First Lien Net Leverage Ratio. As of June 30, 2022, the Company was in compliance with the First Lien Net Leverage Ratio financial covenant of the Amended A&R First Lien Credit Agreement.

#### Revolving Credit Agreement

In June 2021, the Company entered into Amendment No. 2 to the Amended and Restated First Lien Credit Agreement (“Amendment No. 2”) that (i) increased the maximum available borrowing capacity under the Revolving Commitment from \$75,000 to \$150,000 and (ii) extended the maturity date of the Revolving Commitment to the earliest to occur of (a) June 4, 2026, (b) the date that is six months prior to the maturity date of the First Lien Term Loan (provided that clause (b) shall not apply if the maturity date for the First Lien Term Loan is extended to a date that is at least six months after June 4, 2026, the First Lien Term Loan is refinanced having a maturity date at least six months after June 4, 2026, or the First Lien Term Loan is paid in full), (c) the date that commitments under the Revolving Commitment are permanently reduced to zero, and (d) the date of the termination of the commitments under the Revolving Commitment. The increase to the maximum available borrowing capacity was effected on the close of the IPO in June 2021. In connection with Amendment No. 2, the Company expensed \$87 of previously unamortized debt issuance costs as a loss on extinguishment of debt in the unaudited condensed consolidated statements of operations and comprehensive income.

As of June 30, 2022 and December 31, 2021, there were no amounts outstanding under the Revolving Commitment.

The maximum available borrowing capacity under the Revolving Commitment is reduced by outstanding letters of credit under the Revolving Commitment. As of June 30, 2022 and December 31, 2021, the available borrowing capacity under the Revolving Commitment was \$148,991 and \$149,503, respectively.

In addition, an unused commitment fee based on the Company’s First Lien Net Leverage Ratio is payable on the average of the unused borrowing capacity under the Revolving Commitment. As of June 30, 2022 and December 31, 2021, the unused commitment fee was 0.25%.

#### Standby Letters of Credit

As of June 30, 2022, the Company has a letter of credit sublimit of \$10,000 under the Revolving Commitment, provided that the total utilization of revolving commitments under the Revolving Commitment does not exceed \$150,000. Any letter of credit issued under the Credit Agreement has an expiration date which is the earlier of (i) no later than 12 months from the date of issuance or (ii) five business days prior to the maturity date of the Revolving Commitment, as amended under Amendment No. 2. Letters of credit under the Revolving Commitment reduce the maximum available borrowing capacity under the Revolving Commitment. As of June 30, 2022 and December 31, 2021, the amounts associated with outstanding letters of credit were \$1,009 and \$497, respectively, and unused letters of credit under the Revolving Commitment were \$8,991 and \$9,503, respectively.

#### Second Lien Credit Agreement

In June 2021, the Company made a voluntary prepayment of all outstanding borrowings under the second lien term loan (the “Second Lien Term Loan”) pursuant to the Second Lien Credit Agreement entered into May 2019, as amended by the First Amendment to Second Lien Credit Agreement in March 2020 (the “Amended Second Lien Credit Agreement”) funded by the net proceeds from the IPO, which included outstanding principal of \$242,673 and accrued interest expense of \$6,050. In connection with this voluntary prepayment, the Company expensed \$2,059 of previously unamortized debt issuance costs as a loss on extinguishment of debt in the unaudited condensed consolidated statements of operations and comprehensive income.

### 9. Fair Value Measurements

The following table presents financial liabilities which are measured at fair value on a recurring basis as of June 30, 2022:

	Total	Fair Value Measurements		
		Level 1	Level 2	Level 3
<b>Assets:</b>				
Interest rate swap	\$ 3,375	\$ -	\$ 3,375	\$ -
<b>Liabilities:</b>				
Contingent Consideration	\$ 5,750	\$ -	\$ -	\$ 5,750

The following table presents financial liabilities which are measured at fair value on a recurring basis as of December 31, 2021:

	Total	Fair Value Measurements		
		Level 1	Level 2	Level 3
<b>Assets:</b>				
Interest rate swap	\$ 268	\$ -	\$ 268	\$ -
<b>Liabilities:</b>				
Contingent Consideration	\$ 5,750	\$ -	\$ -	\$ 5,750

The Company measures the fair value of its financial assets and liabilities using the highest level of inputs that are available as of the measurement date. The carrying amounts of cash, accounts receivable, and accounts payable approximate their fair value due to the immediate or short-term maturity of these financial instruments. See Note 10 Interest Rate Swap for additional information on the interest rate swap.

As of June 30, 2022 and December 31, 2021, the fair value of the Company's First Lien Term Loan approximated its carrying value due to the debt's variable interest rate terms.

The Company recognized a Level 3 contingent consideration liability in connection with the Downtowner Car Wash acquisition in December 2021. The Company measured its contingent consideration liability using Level 3 unobservable inputs. The contingent consideration liability is associated with the achievement of certain targets and is estimated at each balance sheet date by considering among other factors, results of completed periods and the Company's most recent financial projection for future periods subject to earn-out payments. There are two components to the contingent consideration: a payment when the Company obtains the certificate of occupancy for the car wash and opens to the public in 2023 and an annual payment based on certain financial metrics of the business. A change in the forecasted revenue or projected opening dates could result in a significantly lower or higher fair value measurement. The Company determined that there were no significant changes to the unobservable inputs that would have resulted in a change in fair value of this contingent consideration liability at June 30, 2022.

During the three and six months ended June 30, 2022 and 2021, there were no transfers between fair value measurement levels.

#### 10. Interest Rate Swap

In May 2020, the Company entered into a pay-fixed, receive-floating interest rate swap (the "Swap") to mitigate variability in forecasted interest payments on an amortizing notional of \$550,000 of the Company's variable-rate First Lien Term Loan. The Company designated the Swap as a cash flow hedge.

As of June 30, 2022, information pertaining to the Swap was as follows:

Notional Amount	Fair Value	Pay-Fixed	Receive-Floating	Maturity Date
\$ 541,624	\$ 3,375	0.308%	1.60%	October 20, 2022

As of June 30, 2022 and December 31, 2021, the fair value of the Swap was \$3,375 and \$268, respectively, and is reported as a debit balance as a result of floating interest rates above fixed interest rates, and is included in prepaid expenses and other current assets in the accompanying unaudited condensed consolidated balance sheets.

For the three months ended June 30, 2022 and 2021, amounts reported in other comprehensive income in the accompanying unaudited condensed consolidated statements of operations and comprehensive income are net of tax of \$100 and \$9, respectively.

For the six months ended June 30, 2022 and 2021, amounts reported in other comprehensive income in the accompanying unaudited condensed consolidated statements of operations and comprehensive income are net of tax of \$725 and \$115, respectively.

#### ***The 2014 Plan***

Under the 2014 Stock Option Plan of Hotshine Holdings, Inc. (the "2014 Plan"), the Company may grant incentive stock options or nonqualified stock options to purchase common shares of the Company to its employees, directors, officers, outside advisors and non-employee consultants.

All stock options granted under the 2014 Plan are equity-classified and have a contractual life of ten years. Under the 2014 Plan, 60% of the shares in a grant contain service-based vesting conditions and vest ratably over a five-year period and 40% of the shares in a grant contain performance-based vesting conditions ("Performance Vesting Options"). The condition for the Performance Vesting Options is a change in control or an initial public offering, where (i) 50% of the Performance Vesting Options vest and become exercisable if the Principal Stockholders receive the Target Proceeds at the Measurement Date and (ii) the remaining 50% of the Performance Vesting Options vest and become exercisable if the Principal Stockholders receive the Maximum Amount at the Measurement Date. Principal Stockholders is defined in the 2014 Plan as (a) Green Equity Investors VI, L.P., (b) Green Equity Investors Side VI, L.P., (c) LGP Associates VI-A, LLC, (d) LGP Associates VI-B LLC, and (e) the affiliates of the foregoing entities. Measurement Date is defined as the date of a change in control or an initial public offering, whichever comes first. The Target Proceeds and Maximum Amount are defined and measured by either multiples of invested capital or an annual compounded pre-tax internal rate of return on investment. In June 2021, the Company modified all outstanding shares of Performance Vesting Options to remove, subject to the successful completion of the IPO, the requirement that the Principal Stockholders receive the Target Proceeds and the Maximum Amount as conditions for the Performance Vesting Options to vest. The exercise prices for stock options granted under the 2014 Plan were not less than the fair market value of the common stock of the Company on the date of grant. For the avoidance of doubt, the IPO constituted a performance measurement date under the applicable option agreements for the Performance Vesting Options and the Performance Vesting Options vested in full in connection with the IPO.

#### ***The 2021 Plan***

In June 2021, the Board adopted the 2021 Incentive Award Plan (the "2021 Plan"), which was subsequently approved by the Company's stockholders and became effective on June 25, 2021. Under the 2021 Plan, the Company may grant incentive stock options, nonqualified stock options, restricted stock units ("RSUs"), restricted stock, and other stock- or cash-based awards to its employees, directors, officers, and non-employee consultants. Initially, the maximum number of shares of the Company's common stock that may be issued under the 2021 Plan is 29,800,000 new shares of common stock, which includes 256,431 shares of common stock that remained available for issuance under the 2014 Plan at June 25, 2021. In connection with the IPO, stock option and RSU

awards were granted with respect to 3,726,305 shares. Any shares of common stock subject to outstanding stock awards granted under the 2014 Plan and, following June 25, 2021, terminate, expire or are otherwise forfeited, reacquired or withheld will become available for issuance under the 2021 Plan.

All stock options granted under the 2021 Plan are equity-classified and have a contractual life of ten years. Under the 2021 Plan, the stock options contain service-based vesting conditions and generally vest ratably over a three- or five-year period (collectively with stock options under the 2014 Plan, the “Time Vesting Options”). The exercise prices for stock options granted under the 2021 Plan were not less than the fair market value of the common stock of the Company on the date of grant.

RSUs granted under the 2021 Plan are equity-classified and contain service-based conditions and generally vest ratably over one- to five-year periods. Each RSU represents the right to receive one share of the Company’s common stock upon vesting. The fair value is calculated based upon the Company’s closing stock price on the date of grant, and the stock-based compensation expense is recognized over the requisite service period, which is generally the vesting period.

The 2014 Plan and 2021 Plan are administered by the Board or, at the discretion of the Board, by a committee thereof. The exercise prices for stock options, the vesting of awards, and other restrictions are determined at the discretion of the Board, or its committee if so delegated.

**The 2021 ESPP**

In June 2021, the Board adopted the 2021 Employee Stock Purchase Plan (“2021 ESPP”), which was subsequently approved by the Company’s stockholders and became effective in June 2021. The 2021 ESPP authorizes the initial issuance of up to 5,000,000 shares of the Company’s common stock to eligible employees of the Company or, as designated by the Board, employees of a related company. The 2021 ESPP provides for offering periods not to exceed 27 months, and each offering period will include purchase periods. The Company determined that offering periods would commence at approximately the six-month period beginning with an enrollment date and ending with the next exercise date, except that the first offering period commenced on the effective date of the Company’s registration statement and ended on November 9, 2021.

The 2021 ESPP provides that the number of shares reserved and available for issuance under the 2021 ESPP will automatically increase on January 1 of each calendar year from January 1, 2022 through January 1, 2031 by an amount equal to the lesser of (i) 0.5% of the outstanding number of shares of common stock on the immediately preceding December 31 and (ii) such lesser number of shares of common stock as determined by the Board. The number of shares reserved and available for issuance under the 2021 ESPP as of January 1, 2022 is 6,057,993.

**Share-Based Payment Valuation**

The grant date fair value of Time Vesting Options granted is determined using the Black-Scholes option-pricing model. The grant date fair value of Performance Vesting Options is determined using a Monte Carlo simulation model and a barrier-adjusted Black-Scholes option-pricing model. The grant date fair value of stock purchase rights granted under the 2021 ESPP is determined using the Black-Scholes option-pricing model.

In February 2021, the Company modified a total of 7,874,304 shares of Performance Vesting Options for 12 grantees to provide for an additional service-based vesting condition related to the acceleration of vesting in connection with a grantees' death. The modification resulted in an incremental increase to unrecognized compensation expense related to unvested Performance Vesting Options of \$75,217, which was recognized in June 2021 in connection with the completion of the IPO. The Company did not recognize current incremental stock-based compensation expense in connection with the modification during the three months ended March 31, 2021 because the grants vest upon the earlier of a performance condition or a service condition.

In June 2021, the Company modified all outstanding shares of Performance Vesting Options to remove, subject to the successful completion of the IPO, the requirement that the Principal Stockholders receive the Target Proceeds and the Maximum Amount as conditions for the Performance Vesting Options to vest. The assets acquired and liabilities assumed in connection with business acquisitions are recorded at the date of acquisition at their estimated fair values, with any excess of the purchase price over the estimated fair values of the net assets acquired and intangible assets assigned, recorded as goodwill. Significant judgment is required in estimating the fair value of assets acquired and liabilities assumed and in assigning their respective useful lives. Accordingly, the Company may engage third-party valuation specialists to assist in these determinations. The fair value estimates are based on available historical information and on future expectations and assumptions deemed reasonable by management; but are inherently uncertain.

## **16. Commitments and Contingencies**

### **Litigation**

From time to time, the Company is party to pending or threatened lawsuits arising out of or incident to the ordinary course of business. The Company carries professional and general liability insurance coverage and other insurance coverages. In the opinion of management and upon consultation with legal counsel, none of the pending or threatened lawsuits will have a material effect upon the consolidated financial position, operations, or cash flows of the Company.

### **Insurance**

As of June 30, 2022 and December 31, 2021, the Company accrued \$3,254 and \$3,169, respectively, for assessments on insurance claims filed, which are included in other accrued expenses in the accompanying unaudited condensed consolidated balance sheets. ### **Environmental Matters**

Operations at certain facilities currently or previously owned or leased by the Company utilize, or in the past have utilized, hazardous substances generally in compliance with applicable law. Periodically, the Company has had minor claims asserted against it by regulatory agencies or private parties for environmental matters relating to the handling of hazardous substances by the Company, and it has incurred obligations for investigations or remedial actions with respect to certain of these matters. There can be no assurances that activities at these facilities, or future facilities owned or operated by the Company, may not result in additional environmental claims being asserted against the Company or additional investigations or remedial actions being required. The Company is not aware of any significant remediation matters as of June 30, 2022. Because of various factors including the difficulty of identifying the responsible parties for any particular site, the complexity of determining the relative liability among them, the uncertainty as to the most desirable remediation techniques and the amount of damages and clean-up costs and the time period during which such costs may be incurred, the Company is unable to reasonably estimate the ultimate cost of claims asserted against the Company related to environmental matters; however, the Company does not believe such costs will be material to its unaudited condensed consolidated financial statements.

In addition to potential claims asserted against the Company, there are certain regulatory obligations associated with these facilities. The Company also has a third-party specialist to review the sites subject to these regulations annually, for the purpose of assigning future cost. A third party has conducted a preliminary assessment of site restoration provisions arising from these regulations and the Company has recognized a provisional amount. As of June 30, 2022 and December 31, 2021, the Company recorded an environmental remediation accrual of \$12, which is included in other accrued expenses in the accompanying unaudited condensed consolidated balance sheets.

Our scale and over 25 years of innovation allow us to drive operating efficiencies and invest in training, infrastructure, and technology that improve speed of service, quality, and sustainability and realize strong financial performance.

### Factors Affecting Our Business and Trends

We believe that our business and growth depend on a number of factors that present significant opportunities for us and may pose risks and challenges, including those discussed below and in Part I, Item 1A. "Risk Factors" of our 2021 10-K.

- *Growth in comparable store sales.* Comparable store sales have been a strong driver of our net revenue growth and we expect it to continue to play a key role in our future growth and profitability. We will seek to continue to grow our comparable store sales by increasing the number of UWC Members, increasing efficiency and throughput of our car wash locations, increasing marketing spend to add new customers, and increasing customer visitation frequency.
- *Number and loyalty of UWC Members.* The UWC program is a critical element of our business. UWC Members contribute a significant portion of our net revenue and provide recurring revenue through their monthly Membership fees.
- *Labor management.* Hiring and retaining skilled team members and experienced management represents one of our largest costs. We believe people are the key to our success and we have been able to successfully attract and retain engaged, high-quality team Members by paying competitive wages, offering attractive benefit packages, and providing robust training and development opportunities. While the competition for skilled labor is intense and subject to high turnover, we believe our approach to wages and benefits will continue to allow us to attract suitable team Members and management to support our growth.

### Factors Affecting the Comparability of Our Results of Operations

Our results have been affected by, and may in the future be affected by, the following factors, which must be understood in order to assess the comparability of our period-to-period financial performance and condition.

#### *Greenfield Location Development*

Our primary historical growth strategy has involved acquiring local and regional car wash operators, upgrading the facilities and equipment, training the team to provide the "Mister Experience," and converting the site to the "Mister" brand. More recently, we have also grown through greenfield development of Mister Car Wash locations, with particular focus on Express Exterior Locations, and anticipate further pursuit of this strategy in the future. In the three and six months ended June 30, 2022, we successfully opened four and seven greenfield locations, respectively. Our future location growth will be dependent on greenfield development.

The comparability of our results may be impacted by the inclusion of financial performance of greenfield locations that have not delivered a full fiscal year of financial results nor matured to average unit volumes, which we typically expect after approximately three full years of operation.

## Acquisitions

In the three and six months ended June 30, 2022, we completed two acquisitions of five properties that operated as conveyORIZED car washes.

Following an acquisition, we implement a variety of operational improvements to unify branding and enhance profitability. As soon as feasible, we fully integrate and transition acquired locations to the "Mister" brand and make investments to improve site flow, upgrade tunnel equipment and technology, and install our proprietary Unity Chemical system, which is a unique blend of our signature products utilizing the newest technology and services to make a better car wash experience for our customers. We also establish member-only lanes, optimize service offerings and implement training initiatives that we have successfully utilized to improve team member engagement and drive UWC growth post-acquisition. The costs associated with these onboarding initiatives, which vary by site, can impact the comparability of our results.

The comparability of our results may also be impacted by the inclusion of financial performance of our acquisitions that have not delivered a full fiscal year of financial results under Mister Car Wash's ownership.

See Note 14 Business Combinations to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for additional discussion.

## Key Performance Indicators

We prepare and analyze various operating and financial data to assess the performance of our business and to help in the allocation of our resources. The key operating performance and financial metrics and indicators we use are set forth below, as of and for the three and six months ended June 30, 2022 and 2021.

## Location Count (end of period)

Our location count refers to the total number of car wash locations at the end of a period, inclusive of new greenfield locations, acquired locations, and closed locations. The total number of locations that we operate, as well as the timing of location openings, acquisitions, and closings, have, and will continue to have, an impact on our performance. In the three months ended June 30, 2022, we increased our location count by 10 locations, comprised of four greenfield locations and six acquired locations. In the six months ended June 30, 2022, we increased our location count by 13 locations, comprised of seven greenfield locations and six acquired locations. One location, which was part of a 2021 acquisition, opened during the three months ended June 30, 2022 and is included as an acquired location above.

Our Express Exterior Locations, which offer express exterior cleaning services, comprise 332 of our current locations and our Interior Cleaning Locations, which offer both express exterior cleaning services and interior cleaning services, comprise 77 of our current locations.

## Comparable Store Sales Growth

A location is considered a comparable store on the first day of the 13th full calendar month following a location's first day of operations. A location converted from an Interior Cleaning Location format to an Express Exterior Location format is excluded when the location did not offer interior cleaning services in the current period but did offer interior cleaning services in the prior year period. Comparable store sales growth is the percentage change in total wash sales of all comparable store car washes.

Opening new locations is a primary component of our growth strategy and as we continue to execute on our growth strategy, we expect that a significant portion of our sales growth will be attributable to non-comparable store sales. Accordingly, comparable store sales are only one measure we use to assess the success of our growth strategy. For the three months ended June 30, 2022, comparable store sales increased to 2% compared to an increase of 93% in the three months ended June 30, 2021.

### ***UWC Members (end of period)***

Members of our monthly subscription service are known as Unlimited Wash Club Members, or UWC Members. We view the number of UWC Members and the growth in the number of UWC Members on a net basis from period to period as key indicators of our revenue growth. The number of UWC Members has grown over time as we have acquired new customers and retained previously acquired customers. There were approximately 1.8 million and approximately 1.5 million UWC Members as of June 30, 2022 and June 30, 2021, respectively. There were approximately 1.7 million UWC Members as of December 31, 2021.

Our UWC Members grew by approximately 20% from June 30, 2021 through June 30, 2022 and approximately 11% from December 31, 2021 through June 30, 2022.

### ***UWC Sales as a Percentage of Total Wash Sales***

UWC sales as a percentage of total wash sales represents the penetration of our subscription membership program as a percentage of our overall wash sales. Total wash sales are defined as the net revenue generated from express exterior cleaning services and interior cleaning services for both UWC Members and retail customers. UWC sales as a percentage of total wash sales is calculated as sales generated from UWC Members as a percentage of total wash sales. We have consistently grown this measure over time as we educate customers as to the value of our subscription offering. UWC sales were 66% and 62% of our total wash sales for the three months ended June 30, 2022 and 2021, respectively. UWC sales were 65% and 62% of our total wash sales for the six months ended June 30, 2022 and 2021, respectively.

### ***Adjusted EBITDA and Adjusted EBITDA Margin***

Adjusted EBITDA is a non-GAAP measure of our financial performance and should not be considered as an alternative to net income as a measure of financial performance or any other performance measure derived in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP") and should not be construed as an inference that our future results will be unaffected by unusual or nonrecurring items. Adjusted EBITDA is defined as net income (loss) before interest expense, net, income tax provision, depreciation and amortization expense, loss (gain) on sale of assets, gain on sale of quick lube facilities, dividend recapitalization fees and payments, loss on early debt extinguishment, stock-based compensation expense, acquisition expenses, management fees, non-cash rent expense, expenses associated with securities offerings, and other nonrecurring charges. Adjusted EBITDA margin is defined as Adjusted EBITDA divided by net revenues for a given period.

We present Adjusted EBITDA because we believe it assists investors and analysts in comparing our operating performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our ongoing operating performance. You are encouraged to evaluate these adjustments and the reasons we consider them appropriate for supplemental analysis. In evaluating Adjusted EBITDA, you should be aware that in the future we may incur expenses that are the same as or similar to some of the adjustments in our presentation of Adjusted EBITDA. Our presentation of Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. There can be no assurance that we will not modify the presentation of Adjusted EBITDA in future periods, and any such modification may be material. In addition, Adjusted EBITDA may not be comparable to similarly titled measures used by other companies in our industry or across different industries.

Our management believes Adjusted EBITDA is helpful in highlighting trends in our core operating performance compared to other measures, which can differ significantly depending on long-term strategic decisions regarding capital structure, the tax jurisdictions in which companies operate and capital investments. We also use Adjusted EBITDA in connection with establishing discretionary annual incentive compensation; to supplement U.S. GAAP measures of performance in the evaluation of the effectiveness of our business strategies; to make budgeting decisions; and because our Amended A&R First Lien Credit Agreement uses measures similar to Adjusted EBITDA to measure our compliance with certain covenants.

Adjusted EBITDA has its limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under U.S. GAAP. Some of these limitations include:

- Adjusted EBITDA does not reflect our cash expenditure or future requirements for capital expenditures or contractual commitments;
- Adjusted EBITDA does not reflect changes in our cash requirements for our working capital needs;
- Adjusted EBITDA does not reflect the interest expense and the cash requirements necessary to service interest or principal payments on our debt;
- Adjusted EBITDA does not reflect cash requirements for replacement of assets that are being depreciated and amortized;
- Adjusted EBITDA does not reflect non-cash compensation, which is a key element of our overall long-term compensation;

- Adjusted EBITDA does not reflect the impact of certain cash charges or cash receipts resulting from matters we do not find indicative of our ongoing operations; and
- other companies in our industry may calculate Adjusted EBITDA differently than we do.

Adjusted EBITDA was approximately \$74.5 million and \$73.1 million in the three months ended June 30, 2022 and 2021, respectively. Our Adjusted EBITDA margin was 33.1% and 37.1% in the three months ended June 30, 2022 and 2021, respectively. Adjusted EBITDA was approximately \$149.3 million and \$134.6 million in the six months ended June 30, 2022 and 2021, respectively. Our Adjusted EBITDA margin was 33.6% and 36.1% in the six months ended June 30, 2022 and 2021. The following is a reconciliation of our net income to Adjusted EBITDA for the periods presented.

## Components of Our Results of Operations

### Net Revenues

We recognize revenue in two main streams: (i) the UWC program that entitles the customer to unlimited washes for a monthly subscription fee, cancellable at any time and (ii) retail car washes and other services. In the UWC program, we enter into a contract with the customer that falls under the definition of a customer contract under ASC 606, *Revenue from Contracts with Customers*. Customers are automatically charged on a credit card or debit card on the same date of the month that they originally signed up. Our performance obligations are to provide unlimited car wash services for a monthly fee. Revenue from the UWC program is recognized ratably over the month in which it is earned and amounts unearned are recorded as deferred revenue on the unaudited condensed consolidated balance sheets; all amounts recorded as deferred revenue at year-end are recognized as revenue in the following year. Revenue from retail car wash and other services is recognized at the point in time at which services are rendered and the customer

pays with cash, debit card, or credit card. Revenues are net of sales tax, refunds, and discounts applied as a reduction of revenue at the time of payment.

### ***Store Operating Costs***

Store operating costs consist of cost of labor and chemicals and other car wash store operating expenses.

#### ***Cost of Labor and Chemicals***

Cost of labor and chemicals include compensation and related employee benefit expenses associated with car wash employees, maintenance employees, warehouse employees, chemicals and associated supplies, including wages, cash bonuses, stock-based compensation, taxes, insurance, and workers compensation payments as reported in the unaudited condensed consolidated statements of operations and comprehensive income included elsewhere in this Quarterly Report on Form 10-Q.

#### ***Other Store Operating Expenses***

Other store operating expenses includes all other costs related to the operations of car wash and warehouse locations such as credit card fees, car damages, office and lobby supplies, information technology costs associated with the locations, telecommunications, advertising, non-healthcare related insurance, rent, repairs and maintenance related to assets, utilities, property taxes, and depreciation expense on assets at the car wash and warehouse locations.

### ***General and Administrative***

General and administrative expenses include compensation expenses and the related employee benefits of headquarters employees, including wages, cash bonuses, stock-based compensation, taxes, insurance, and workers compensation payments, as well as information technology expenses, administrative office expenses, professional services and other related expenses, depreciation expense on held-for-use assets used at our headquarters, and amortization expense associated with our intangible assets.

We will continue to incur significant expenses on an ongoing basis that we did not incur as a private company. Those costs include additional director and officer liability insurance expenses, as well as third-party and internal resources related to accounting, auditing, Sarbanes-Oxley Act compliance, legal, and investor and public relations expenses. We expect such expenses to further increase after we are no longer an emerging growth company. These costs will generally be expensed under general and administrative expenses in the unaudited condensed consolidated statements of operations and comprehensive income included elsewhere in this Quarterly Report on Form 10-Q.

### ***Loss on Sale of Assets***

Loss on sale of assets includes losses on the sale-leaseback of our locations and sale of property and equipment.

### ***Interest Expense, net***

Interest expense, net consists primarily of cash and non-cash interest expense on borrowings, partially offset by interest income earned on our cash balances.

### ***Loss on Extinguishment of Debt***

Loss on extinguishment of debt includes losses associated with amendments to our existing debt that are accounted for as extinguishments, as well as losses associated with partial or whole payments on our debt that qualify for extinguishment accounting.

### ***Income Tax Provision***

We recognize deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized differently in the financial statements or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between the financial statement carrying amounts and tax basis of assets and liabilities using enacted tax rates.

We have adopted a more-likely-than-not threshold for financial statement recognition and measurement of an uncertain tax position taken or expected to be taken in a tax return. We recognize interest and penalties related to uncertain tax positions in income tax provision in our unaudited condensed consolidated statements of operations and comprehensive income included elsewhere in this Quarterly Report on Form 10-Q.

### Net Revenues

(Dollars in thousands)	Three Months Ended June 30,		\$ Change	% Change
	2022	2021		
Net revenues	\$ 225,159	\$ 197,080	\$ 28,079	14 %

Net revenues were \$225.2 million for the three months ended June 30, 2022 compared to \$197.1 million for the three months ended June 30, 2021, an increase of \$28.1 million, or 14%. The increase in net revenues was primarily attributable to the increase in car wash sales due to growth in UWC Members and the year-over-year addition of 58 locations.

### Store Operating Costs

#### Cost of Labor and Chemicals

(Dollars in thousands)	Three Months Ended June 30,		\$ Change	% Change
	2022	2021		
Cost of labor and chemicals	\$ 69,351	\$ 87,864	\$ (18,513)	(21)%
Percentage of net revenues	31 %	45 %		

Cost of labor and chemicals was \$69.4 million for the three months ended June 30, 2022 compared to \$87.9 million for the three months ended June 30, 2021, a decrease of \$18.5 million, or 21%. The decrease in the cost of labor and chemicals is primarily driven by the prior year recognition of stock-based compensation expense of \$31.3 million related to our performance-based vesting stock options that vested on the consummation of our IPO in June 2021, as well as the approximately \$0.8 million of costs associated with gasoline sales which were offered in the three months ended June 30, 2021 but which we did not offer in the three months ended June 30, 2022. These decreases were partially offset by an increase in labor and benefits of \$11.0 million and an increase in wash chemicals and supplies of approximately \$1.5 million during the three months ended June 30, 2022, both attributable to an increase in volume and the year-over-year addition of 58 locations, as well as some inflationary pressures on both our labor and chemicals.

#### Other Store Operating Expenses

(Dollars in thousands)	Three Months Ended June 30,		\$ Change	% Change
	2022	2021		
Other store operating expenses	\$ 79,029	\$ 65,363	\$ 13,666	21 %
Percentage of net revenues	35 %	33 %		

Other store operating expenses were \$79.0 million for the three months ended June 30, 2022 compared to \$65.4 million for the three months ended June 30, 2021, an increase of \$13.7 million, or 21%. The increase in other store operating expenses was attributable to the year-over-year addition of 58 locations and some inflationary pressures on our utilities and maintenance expenses. Rent expense increased approximately \$2.5 million with the addition of 35 new land and building leases.

#### General and Administrative

(Dollars in thousands)	Three Months Ended June 30,		\$ Change	% Change
	2022	2021		
General and administrative	\$ 25,610	\$ 188,896	\$ (163,286 )	(86 )%
Percentage of net revenues	11 %	96 %		

General and administrative expenses were \$25.6 million for the three months ended June 30, 2022 compared to \$188.9 million for the three months ended June 30, 2021, a decrease of \$163.3 million, or 86%. The decrease in general and administrative expenses was primarily driven by the prior year recognition of stock-based compensation expense of \$170.7 million related to the performance-based vesting stock options that vested on the consummation of our IPO in June 2021. This decrease was partially offset by an increase of approximately \$2.0 million in salaries and benefits, an increase of approximately \$4.2 million in stock-based compensation expense, and an increase of approximately \$2.4 million in other costs, which were primarily attributable to the increased costs of being a public company and increase in corporate headcount.

#### Gain on Sale of Assets

(Dollars in thousands)	Three Months Ended June 30,		\$ Change	% Change
	2022	2021		
Gain on sale of assets	\$ (3,146 )	\$ (7,097 )	\$ 3,951	(56 )%
Percentage of net revenues	(1 )%	(4 )%		

Gain on sale of assets was \$3.1 million for the three months ended June 30, 2022 compared to \$7.1 million for the three months ended June 30, 2021, a decrease of \$4.0 million, or 56%. The gain on sale of assets was primarily driven by gains associated with our sale-leaseback transactions.

#### Other Expense

(Dollars in thousands)	Three Months Ended June 30,		\$ Change	% Change
	2022	2021		
Other expense	\$ 8,762	\$ 16,923	\$ (8,161 )	(48 )%
Percentage of net revenues	4 %	9 %		

Other expense was \$8.8 million for the three months ended June 30, 2022 compared to \$16.9 million for the three months ended June 30, 2021, a decrease of \$8.1 million, or 48%. The decrease in other expense was primarily driven by a \$5.0 million reduction in interest expense, resulting from the June 2021 pay down of the First Lien Term Loan and the June 2021 pay-off of the Second Lien Term Loan and a \$3.2 million loss on extinguishment of debt recorded in the prior year period.

#### Income Tax Provision (Benefit)

(Dollars in thousands)	Three Months Ended June 30,		\$ Change	% Change
	2022	2021		
Income tax provision (benefit)	\$ 9,894	\$ (44,569 )	\$ 54,463	(122 )%
Percentage of net revenues	4 %	(23 )%		

Income tax provision was \$9.9 million for the three months ended June 30, 2022 compared to a benefit of \$44.6 million for the three months ended June 30, 2021, an increase of \$54.5 million, or 122%. The increase in income tax provision was primarily driven by the recognition of stock-based compensation expense related to performance-based options that vested on the consummation of the Company's IPO in June 2021, resulting in increased income before taxes for the three months ended June 30, 2022.

The increase in net revenues was primarily attributable to the increase in car wash sales due to growth in UWC Members and the year-over-year addition of 58 locations.

Percentage of net revenues	30 %	37 %		

Cost of labor and chemicals was \$134.9 million for the six months ended June 30, 2022 compared to \$139.6 million for the six months ended June 30, 2021, a decrease of \$4.7 million, or 3%. The decrease in the cost of labor and chemicals was primarily driven by the prior year recognition of stock-based compensation expense of \$31.3 million related to our performance-based vesting stock options that vested on the consummation of our IPO in June 2021, as well as the approximately \$1.5 million of costs associated with gasoline sales which were offered in the six months ended June 30, 2021 but which we did not offer in the six months ended June 30, 2022. These decreases were partially offset by an increase in labor and benefits of approximately \$23.5 million and an increase in wash chemicals and supplies of approximately \$2.8 million during the three months ended June 30, 2022, both attributable to an

increase in volume and the year-over-year addition of 58 locations, as well as some inflationary pressures on both our labor and chemicals.

#### *Other Store Operating Expenses*

(Dollars in thousands)	Six Months Ended June 30,		\$ Change	% Change
	2022	2021		
Other store operating expenses	\$ 156,830	\$ 126,446	\$ 30,384	24 %
Percentage of net revenues	35 %	34 %		

Other store operating expenses were \$156.8 million for the six months ended June 30, 2022 compared to \$126.4 million for the six months ended June 30, 2021, an increase of \$30.4 million, or 24%. The increase in other store operating expenses was attributable to the year-over-year addition of 58 locations and some inflationary pressures on our utilities and maintenance expenses. Rent expense increased approximately \$4.8 million with the addition of 35 new land and building leases.

#### *General and Administrative*

(Dollars in thousands)	Six Months Ended June 30,		\$ Change	% Change
	2022	2021		
General and administrative	\$ 49,297	\$ 203,857	\$ (154,560)	(76)%
Percentage of net revenues	11 %	55 %		

General and administrative expenses were \$49.3 million for the six months ended June 30, 2022 compared to \$203.9 million for the six months ended June 30, 2021, a decrease of \$154.6 million, or 76%. The decrease in general and administrative expenses was primarily driven by the prior year recognition of stock-based compensation expense of \$170.7 million related to the performance-based vesting stock options that vested on the consummation of our IPO in June 2021. This decrease was partially offset by an increase of approximately \$5.0 million in salaries and benefits, an increase of approximately \$7.5 million in stock-based compensation expense, and an increase of approximately \$4.6 million in other costs, which were primarily attributable to the increased costs of being a public company and increase in corporate headcount.

#### *Gain on Sale of Assets*

(Dollars in thousands)	Six Months Ended June 30,		\$ Change	% Change
	2022	2021		
Gain on sale of assets	\$ (2,687)	\$ (6,307)	\$ 3,620	(57)%
Percentage of net revenues	(1)%	(2)%		

Loss on sale of assets was \$2.7 million for the six months ended June 30, 2022 compared to \$6.3 million for the six months ended June 30, 2021, a decrease of \$3.6 million, or 57%. The gain on sale of assets was primarily driven by gains associated with our sale-leaseback transactions.

#### *Other Expense*

(Dollars in thousands)	Six Months Ended June 30,		\$ Change	% Change
	2022	2021		
Other expense	\$ 16,928	\$ 30,882	\$ (13,954)	(45)%
Percentage of net revenues	4 %	8 %		

Other expense was \$16.9 million for the six months ended June 30, 2022 compared to \$30.9 million for the six months ended June 30, 2021, a decrease of \$14.0 million, or 45%. The decrease in other expense was primarily driven by a \$10.8 million reduction in interest expense, resulting from the June 2021 pay down of the First Lien Term Loan and the June 2021 pay-off of the Second Lien Term Loan and a \$3.2 million loss on extinguishment of debt recorded in the prior year period.

## Income Tax Provision (Benefit)

(Dollars in thousands)	Six Months Ended June 30,		\$ Change	% Change
	2022	2021		
Income tax provision (benefit)	\$ 18,174	\$ (36,187 )	\$ 54,361	(150 )%
Percentage of net revenues	4 %	(10 )%		

Income tax provision was \$18.2 million for the six months ended June 30, 2022 compared to a benefit of \$36.2 million for the six months ended June 30, 2021, an increase of \$54.4 million, or 150%. The increase in income tax provision was primarily driven by the recognition of stock-based compensation expense related to performance-based options that vested on the consummation of the Company's IPO in June 2021, resulting in increased income before taxes for the six months ended June 30, 2022.

## Liquidity and Capital Resources

### Funding Requirements

Our primary requirements for liquidity and capital are to fund our investments in our core business, to pursue greenfield expansion and acquisitions, and to service our indebtedness. Historically, these cash requirements have been met through funds raised by the sale of common equity, utilization of our Revolving Commitment, First Lien Term Loan, Second Lien Term Loan, sale-leaseback transactions, and cash provided by operations. As of June 30, 2022 and December 31, 2021, we had cash and cash equivalents of \$37.7 million and \$19.7 million, respectively, and \$149.0 million and \$149.5 million, respectively, of available borrowing capacity under our Revolving Commitment.

In June 2021, we entered into Amendment No. 2, which increased the commitments under the Revolving Commitment from \$75.0 million to \$150.0 million. In June 2021, we made a voluntary prepayment of all outstanding balances under our Second Lien Term Loan, which included \$242.7 million in outstanding principal and \$6.1 million in accrued interest expense, and a voluntary prepayment of \$190.4 million of outstanding principal under our First Lien Term Loan. These voluntary prepayments were funded with the net proceeds of our IPO and the Amended Second Lien Credit Agreement was terminated.

In December 2021, in connection with the Clean Streak Ventures acquisition, we entered into Amendment No. 3, which increased the principal borrowings under the First Lien Term Loan by \$290.0 million to \$903.0 million. For a description of our credit facilities, please see Note 8 Debt in the unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q.

As of June 30, 2022, we were in compliance with the covenants under the Amended A&R First Lien Credit Agreement.

We believe that our sources of liquidity and capital will be sufficient to finance our growth strategy and resulting operations, planned capital expenditures, and the additional expenses we expect to incur as a public company for at least the next 12 months. However, we cannot assure you that cash provided by operating activities or cash and cash equivalents will be sufficient to meet our future needs. If we are unable to generate sufficient cash flows from operations in the future, we may have to obtain additional financing. If we obtain additional capital by issuing equity, the interests of our existing stockholders will be diluted. If we incur additional indebtedness, that indebtedness may contain significant financial and other covenants that may significantly restrict our operations. We cannot assure you that we could obtain additional financing on favorable terms or at all.

### Cash Flows for the Six Months Ended June 30, 2022 and 2021 (Unaudited)

The following table shows summary cash flow information for the six months ended June 30, 2022 and 2021:

(Dollars in thousands)	Six Months Ended June 30,	
	2022	2021
Net cash provided by operating activities	\$ 134,615	\$ 119,675
Net cash used in investing activities	(119,766 )	(66,645 )
Net cash used in financing activities	3,062	(12,564 )
Net increase in cash and cash equivalents, and restricted cash	<u>\$ 17,911</u>	<u>\$ 40,466</u>

*Operating Activities.* Net cash provided by operating activities consists of net income adjusted for certain non-cash items, including stock-based compensation expense, property and equipment depreciation, gains on the disposal of property and equipment, amortization of leased assets and deferred income taxes, as well as the effect of changes in other working capital amounts.

For the six months ended June 30, 2022, net cash provided by operating activities was \$134.6 million and was comprised of net income of \$71.1 million, increased by \$73.2 million as a result of non-cash adjustments comprised primarily of stock-based

compensation expense, depreciation and amortization expense, non-cash lease expense, deferred income taxes, a gain on disposal of property and equipment, and amortization of deferred financing costs. Changes in working capital balances decreased cash provided by operating activities by \$9.7 million and were primarily driven by increases in the operating lease liability, other noncurrent assets and liabilities and prepaid expenses and other current assets, offset by a decrease in other receivables, accounts payable and accrued expenses.

For the six months ended June 30, 2021, net cash provided by operating activities was \$119.7 million and was comprised of net loss of \$85.7 million, increased by \$203.4 million as a result of non-cash adjustments comprised primarily of stock-based compensation expense, deferred income taxes, depreciation and amortization expense, non-cash lease expense, a gain on disposal of property and equipment, and a loss on extinguishment of debt. Changes in working capital balances increased cash provided by operating activities by \$2.0 million and were primarily driven by an increase in accounts payable, accrued expenses, and a decrease in deferred revenue, partially offset by decreases in the operating lease liability and other noncurrent assets and liabilities, and increases in accounts receivable, net and prepaid expenses and other current assets.

*Investing Activities.* Our net cash used in investing activities primarily consists of purchases and sale of property and equipment and acquisition of car washes.

For the six months ended June 30, 2022, net cash used in investing activities was \$119.8 million and was primarily comprised of investment in property and equipment to support our greenfield development and other initiatives and two acquisitions, partially offset by the sale of property and equipment.

For the six months ended June 30, 2021, net cash used in investing activities was \$66.6 million and was comprised of purchases of property and equipment primarily to support our greenfield and other initiatives and two acquisitions, partially offset by the sale of property and equipment including sale-leaseback transactions.

*Financing Activities.* Our net cash used in financing activities primarily consists of proceeds and payments on our First Lien Term Loan, Second Lien Term Loan, and Revolving Commitment, as well as proceeds from our IPO.

For the six months ended June 30, 2022, net cash used in financing activities was \$3.1 million and was primarily comprised of repayments of our First Lien Term Loan and principal payments on finance lease obligations, partially offset by proceeds from exercise of stock options.

For the six months ended June 30, 2021, net cash used in financing activities was \$12.6 million and was primarily comprised of repayments of our First Lien Term Loan and Second Lien Term Loan and payments of issuance costs associated with our IPO, partially offset by proceeds from the consummation of our IPO in June 2021.

### **Critical Accounting Policies and Estimates**

Our unaudited condensed consolidated financial statements have been prepared in accordance with U.S. GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities.

On an ongoing basis, we evaluate our estimates and assumptions, including those related to revenue recognition, goodwill and other intangible assets, income taxes and stock-based compensation. We base our estimates on historical experience, current developments and on various other assumptions that we believe to be reasonable under these circumstances, the results of which form the basis for making judgments about carrying values of assets and liabilities that cannot readily be determined from other sources. There can be no assurance that actual results will not differ from those estimates.

The significant accounting policies and estimates used in preparation of the unaudited condensed consolidated financial statements are described in our 2021 10-K. There have been no material changes to our significant accounting policies during the three and six months ended June 30, 2022.

### **Recent Accounting Pronouncements**

See the sections titled “Summary of Significant Accounting Policies—Recently issued accounting pronouncements not yet adopted” in Note 2 to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q for a discussion of recent accounting pronouncements.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

We are exposed to market risk from changes in interest rates and inflation. All these market risks arise in the normal course of business, as we do not engage in speculative trading activities. The following analysis provides quantitative information regarding these risks.

#### **Interest Rate Risk**

Our First Lien Term Loan bears interest at variable rates, which exposes us to market risks relating to changes in interest rates. Interest rate risk is highly sensitive due to many factors, including U.S. monetary and tax policies, U.S. and international economic factors, and other factors beyond our control. As of June 30, 2022 and December 31, 2021, we had \$901.2 million and \$903.3 million, respectively, of variable rate debt outstanding under our First Lien Term Loan. Based on the balance outstanding under our First Lien Term Loan as of June 30, 2022, an increase or decrease of 100 basis points in the effective interest rate on the First Lien Term Loan would cause an increase or decrease in interest expense of approximately \$9 million over the next 12 months.

In May 2020, we entered into an interest rate swap to mitigate variability in forecasted interest payments on an amortizing notional of \$550.0 million of our variable-rate First Lien Term Loan. We designated the interest rate swap as a pay-fixed, receive-floating interest rate swap instrument and are accounting for this derivative as a cash flow hedge.

#### **Impact of Inflation**

Our results of operations and financial condition are presented based on historical cost. While it is difficult to accurately measure the impact of inflation due to the imprecise nature of the estimates required, we have recently experienced the effects of inflation on our results of operations and financial condition. In light of the current inflationary market conditions, we cannot assure you that our results of operations and financial condition will not be materially impacted by inflation in the future.

### **Item 4. Controls and Procedures.**

#### **Limitations on Effectiveness of Controls and Procedures**

In designing and evaluating our disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints, and that management is required to apply judgment in evaluating the benefits of possible controls and procedures relative to their costs.

#### **Evaluation of Disclosure Controls and Procedures**

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q. Disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed in the reports that we file or submit under the Exchange Act has been appropriately recorded, processed, summarized and reported on a timely basis and are effective in ensuring that such information is accumulated and communicated to the Company's management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of June 30, 2022, our disclosure controls and procedures were effective at the reasonable assurance level.

#### **Changes in Internal Control over Financial Reporting**

There were no changes in our internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, that occurred during the three months ended June 30, 2022 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II—OTHER INFORMATION

### Item 1. Legal Proceedings.

We are from time to time subject to various claims, lawsuits and other legal proceedings, including intellectual property claims. Some of these claims, lawsuits and other legal proceedings involve highly complex issues, and often these issues are subject to substantial uncertainties. Accordingly, our potential liability with respect to a large portion of such claims, lawsuits and other legal proceedings cannot be estimated with certainty. Management, with the assistance of legal counsel, periodically reviews the status of each significant matter and assesses potential financial exposure. We recognize provisions for claims or pending litigation when we determine that an unfavorable outcome is probable and the amount of loss can be reasonably estimated. Due to the inherent uncertain nature of litigation, the ultimate outcome or actual cost of settlement may materially vary from estimates. If management's estimates prove incorrect, we could incur a charge to earnings which could have a material and adverse effect on our business, results of operations, and financial condition. We are not party to any material legal proceedings.

### Item 1A. Risk Factors.

In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the risk factors disclosed in Part I. Item 1A. "Risk Factors" and in Part II. Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" of our 2021 10-K, before making an investment decision. Our business, financial condition and results of operations could be materially and adversely affected by any of these risks or uncertainties. In that case, the trading price of our common stock could decline, and you may lose all or part of your investment. There have been no material changes to the risk factors described in Part I. Item 1A. "Risk Factors" of our 2021 10-K.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

### Item 3. Defaults Upon Senior Securities.

None.

### Item 4. Mine Safety Disclosures.

Not applicable.

### Item 5. Other Information.

None.
